

## **Greetings valued clients and partners,**

As Coronavirus (COVID-19) continues to evolve, we are well aware of its impact on the health care industry and how care is delivered. We understand your focus right now because it's our focus, too. With the increasing number of questions surrounding what plans to put in place and how to respond to instances of COVID-19, it is important for you to have access to practical information and experienced resources.

From managing personal protective equipment supplies, to evaluating health care workforce and technology considerations, to mobilizing vacant facilities and treating those affected, we are prepared to provide counsel and strategies to your hospitals and health care entities to help navigate the uncharted operational, legal and regulatory implications associated with COVID-19. We have fully mobilized our virtual office capabilities such that we will remain a fully functioning organization even if the need arises to close one or more of our physical office sites.

**As a resource to our clients and contacts of the firm, we have created a new [resource center webpage](#) focused on COVID-19 information.** If you have any questions about COVID-19, please call our hotline number any time, day or night, at **(317) 429-3900**.

I hope that you and your loved ones are safe and healthy, and we wish everyone well as we collectively navigate this global health challenge.

**John Ryan**

President and Managing Partner
