

# COVID-19: The Impact on Home Care and Hospice

## **COVID-19 (Coronavirus)**

Coronavirus Disease, COVID-19, was first discovered in China in December of 2019 in a cluster of pneumonia cases. This is a novel virus that is continuing to spread around the world. As with any other newly identified virus there is much to learn about the disease process, mode of transmission, incubation period, symptoms and treatment.

At this point in time the home care and hospice care industry should be preparing for altered and crisis standards of care. A review of your pandemic plan should be occurring right now and processes should be updated. The home care and hospice care practice is dependent on personnel.

Please join us for the latest information on COVID-19 (Coronavirus) and the implications for home care and hospice.

### **We will discuss:**

the latest CDC guidelines,  
personal protective equipment,  
policies & procedures,  
employee protection protocols,  
syndromic surveillance,  
updating your pandemic plan.

***Join us for our WEBCAST, partnered with NAHC, as we talk about the latest news and information on COVID-19.***
