

CHAP is pleased to announce that we will be having a Home Health Operations Certification Workshop in beautiful San Diego February 28th – March 2nd, 2023. As an extra added benefit, the certification workshop also comes with 18 CE credits.

Association Members can save an additional \$200 when registering using your association code **IAHHC22**, and if an agency registers 4 people the 5th one is **FREE!**

This two-and-a-half-day workshop will focus on giving you all the tools you need for operational excellence with a goal of patient-centered care. This is a hands-on, skill-based workshop that is focused in on the Home Health industry and has a tailored approach to increasing agency success. This workshop is open to everyone working in the home health industry or wanting to get into the industry.

Attendees will:

- Increase knowledge of compliance standards in home health care and apply knowledge in current organizational role.
- Understand and implement quality improvement metrics
- Evaluate leadership skills and apply new knowledge in day-to-day activities
- Analyze workforce management needs and employee engagement tactics
- Apply fiscal management skills
- Increase knowledge of ethically appropriate business development strategies
