

## Registered Nurse – Indiana University Health - Home Health and Hospice

Are you ready for the most challenging and meaningful work of your life? IU Health has a number of RN careers where you will have the opportunity to collaborate with the brightest minds in medicine!

Indiana University Health is Indiana's most comprehensive health system, with 16 hospitals and more than 34,000 team members serving Hoosiers across the state. We're looking for team members who are inspired by challenging and meaningful work for the good of every patient. People who are compassionate and serve with a purpose. People who aspire to excellence every day.

IU Home Health and Hospice provides patients and their families a comprehensive, family-centered care delivered by a highly trained interdisciplinary team. Our Home Health and Hospice team members are available with care provided where the patient lives. We offer traditional, complementary and alternative services while ensuring positive and passionate care.

We are seeking highly motivated individuals that possess critical thinking and time management skills, as the RNs in these positions will operate with a great deal of autonomy.

**We currently have openings in Indianapolis, Muncie, Bloomington and Lafayette.**

To learn more about a day in the life of an IU Health Home Care RN, click on the link below and be a part of the experience.

### **QUALIFICATIONS/KNOWLEDGE/SKILLS/ABILITIES**

- Requires an Associates of Nursing (ASN); Bachelors of Nursing (BSN) preferred.
- Requires that the RN has graduated from a nationally accredited nursing program.
- Requires current state of Indiana license as Registered Nurse.
- Requires Basic Life Support certification through the AHA.
- Other advanced life support certifications may be required per unit/department specialty according to patient care policies.

We have an outstanding partnership with the Indiana University School of Medicine – one of the nation's largest medical schools – gives patients access to groundbreaking research and innovative treatments, and it offers team members access to the latest science and the very best training – advancing healthcare for all.

At IU Health, your personal and professional growth is a top priority! We have access to many diverse opportunities to learn and develop in meaningful ways that matter most to you, such as advanced clinical training, leadership development, promotion opportunities and cross training development.
